

NIRMAN Vision.....

Poverty, food shortage, energy crisis, child deaths, global warming, unemployment.....

There is no dearth of problems. There could be many more challenges that are still unidentified. However the youth with social commitment and professional talent needed to tackle these challenges is generally missing. How to nurture a new generation of leadership to take up social challenges?

NIRMAN started in June 2006 as an initiative to sensitize selected youth in Maharashtra to societal problems and to identify and nurture social change makers.

NIRMAN encourages self-search for the development of one's life mission. NIRMAN provides guidance, expertise and environment to inculcate self-learning so that youth can lead a deeply satisfying and meaningful life.
