

# NIRMAN 14 Batch

***Dear Candidates,***

*Please read the WHOLE document carefully!*

To all those who sent us the application forms, to all those with whom we interacted, thank you! It's been a great learning experience for us. **Congratulations to all of you and a very warm welcome to the NIRMAN Samudaay!** Your NIRMAN educational journey has already started with the application form and the interaction we had (and with the assignments you did!). To continue this journey ahead, we are inviting following people (the list starts from the third page) for the NIRMAN 14<sup>th</sup> batch series of workshops at SEARCH, Gadchiroli. The people in this group are invited by taking into consideration their background, interests, aptitude, activities done so far, their future plans and corresponding learning needs.

So many young people desiring to be part of a social development initiative like NIRMAN is a very encouraging thing. The selection process has been an arduous but enjoyable endeavor! With your batch, the NIRMAN community has now grown beyond 2500 individuals!

The entire NIRMAN 14 batch is divided into 3 sections namely A, B and C. The first workshops of the NIRMAN 14 batch i.e. NIRMAN 14.1 are scheduled as –

**NIRMAN 14.1 A - from 25<sup>th</sup> December, 2023 to 1<sup>st</sup> January, 2024**

**NIRMAN 14.1 B - from 24<sup>th</sup> March, 2024 to 31<sup>st</sup> March, 2024**

**NIRMAN 14.1 C - from 14<sup>th</sup> January, 2024 to 21<sup>st</sup> January, 2024**

The residential workshops will be held on our campus "[Shodhgram](#)" at [SEARCH](#), Gadchiroli.

The allotment of candidates in these three sections is based on our assessment of the inclinations, priorities and corresponding learning needs of the individuals, and thus will consist of specific inputs to orient them to the ocean of possibilities and opportunities of social contribution and of becoming a social change agent. Thus, try such that you can attend the workshop as part of your designated section.

**IMPORTANT: The current selection is only for the first training workshops in the NIRMAN Educational Process. Depending on your presence, the nature and quality of your participation and your further learning needs, the decision about inviting you to the next training workshops in the series will be taken, and that will be solely at the discretion of the NIRMAN Team.**

**Kindly see the list below followed by the details of the procedure and instructions for confirming your position in NIRMAN 14.1 workshops along with the homework that you need to work on.**

During the selection process, we also came across certain individuals who are interested in the NIRMAN process, but based on their priorities and inclinations, we felt that the usual NIRMAN process may not be the most appropriate intervention for them. Since NIRMAN treats every individual uniquely and

believes in personalization, we are planning to conduct a separate standalone workshop for this particular group based on our assessment of their learning needs. That workshop (it will be one of its kind and not a series of workshops) will be conducted in two instances, in the months of April and May. We are announcing the list of participants chosen to attend any one of these two workshops at the end of this document.

We do expect that now onwards you stay in touch with us pro-actively, visit us in Shodhgram, SEARCH, Gadchiroli for NIRMAN workshops as well as take part in various service/research efforts, keep reading relevant material and be socially active in your local situations. Please ask us for advice if necessary, but understand that your NIRMAN journey has already begun now and the onus lies on you to participate to the fullest extent.

We wish to inform everyone that some part of the conversation in NIRMAN training workshops does happen in Marathi, however, Hindi & English are also used frequently. Our prior experience is that people outside of Maharashtra who are not completely well versed with Marathi can still understand the crux of it and are able to extract relevant learning. Their other NIRMAN batch mates also help them in this process. We just want you to know about this and if possible, take some brief lessons about Marathi before reaching here. That would only increase the beauty and fun in the process not to mention that you will still learn a lot anyway.

We also want to take this opportunity to thank our NIRMAN alumni and the team of interviewers who took an active part in this entire selection process, right from the information spread to scrutiny of the applications to conducting the interviews, to providing useful feedback as and when needed. Thank you! We couldn't have completed this mammoth operation without your help.

Everybody who has taken part in the NIRMAN selection process, please continue to contribute to your local community and strengthen your association with NIRMAN. The applicants, whose names are not here in this particular list, can get back to us when the next batch is due to start. All of you can certainly take part in allied initiatives of SEARCH, NIRMAN and NIRMAN alumni which offer rich action-based learning opportunities. And irrespective, continue to nurture sensitivity towards social issues and contribute as best as you can.

It's a great pleasure to have you join us in this social crusade. We hope to have an exciting journey together. Kindly keep on visiting our [website](http://www.nirman.mkcl.org) and stay in touch. See you!

### 3. Reflecting:

- Complete the [VIA Character Strengths](#) profile for yourself. What are your strongest character strengths? How can you build on them in your work and life?
- While selecting your life partner (supposing you have full autonomy in doing so), what set of criteria would you use?
- Imagine an organization say 'x' consisting of some committed people trying to work for social change in an area say 'y' since last 10 years. They have been running a vocational education program for the unemployed youth in the area and providing health care through a hospital. You are going to visit them to understand their work. What questions would you ask to assess the effectiveness of their work?
- How would you rank Liberty, Equality, and Fraternity in the increasing order of importance? What is the reasoning you would use to justify your particular ranking order?

We look forward to seeing you soon!
